SUBJECT: Requirements and Evaluation Office (ICS/REO) July 1988  Activities Report  4. During July, the NIO for Counternarcotics and the Director, REO cochaired two seminars on intelligence support to counternarcotics. The initial seminar on 21 July provided a forum where the consumers (e.g., State/INM, DEA, FBI, Coast Guard, NNBIS and Customs) could share their intelligence needs with representatives from the Intelligence Community. The follow-up seminar on 27 July continued the dialogue between the consumers and the collection managers and producers. The NIO/CN and REO are preparing minutes from the seminars and a list of action items designed to improve intelligence support.  Neapons Intelligence Seminar:  5. REO is making arrangements for the senior-level seminar on weapons intelligence scheduled for 17 August. The D/ICS will chair the meeting, which is designed to offer senior Comunity officials an opportunity to examine trends in our capability to provide weapons intelligence, assess the seriousness of any future problems in this area and, if warranted, explore possible solutions.  Allocation of DCI One Percent Medge for Initiatives:  6. REO and PBO are working jointly on developing the process for identifying and evaluating initiatives that will be in competition for the one percent wedge in the Ft 1990 NFIP. The process of selecting the highest priority initiatives will more than likely result in the development of several alternative packages that will be presented to the DCI for consideration at an NFIC. ## DIRECTOR OF CENTRAL INTELLIGENCE Economic Intelligence Committee

EIC 88-030888 2 August 1988

MEMORANDUM FOR:	Deputy Director of Central Intelligence		
VIA:	Deputy Director Intelligence Community Staff		
FROM:	Chairman		
SUBJECT:	Activity Report for July 1988		
1. The Committee is in the process of revising the list of key countries targeted for intelligence collection on economic issues during FY 1989. Each member agency has reviewed the current list and is suggesting possible additions and deletions. The Executive Secretary will combine the proposed changes and resubmit the list for the members' examination prior to the next Committee meeting in September, when last-minute changes will be worked out.			
2. At its September session, the Committee also will hear a presentation on Soviet involvement in the global financial arena. The briefing will be presented jointly by analysts from NSA and the CIA's Directorate of Intelligence. The session will thus touch on both aspects of the EIC's current two-track approach to identifying key economic intelligence issues that will likely merit Intelligence Community coverage during the next few years: (a) examination of potential implications of Soviet economic reform and (b) review of major trends in global financial markets, trade, and economic development. During the
